

care instructions

This is a hand woven carpet. Each piece is created by an individual artist and has its own identity. Variations in colour and size may occur. Shake carpet out to remove any dirt on the surface or between the fibres. Regularly vacuum with care to keep it clean. The carpet may "Sprout" pieces of wool. This is a common characteristic for carpets made with natural fibres. The sprouts should be trimmed and not pulled. Excessive moisture should be avoided. Clean liquid spills immediately by blotting with a clean dry sponge or cloth to absorb as much of the liquid as possible. Dry with a fan or blow dryer at low heat. Do not soak, scrub or bleach and always dry immediately. To avoid flattening, the use of furniture protectors under the legs of heavy furniture is recommended. To keep the carpet from sliding on hard floors, using a carpet pad underneath it will help. Fading will occur when it is exposed to direct sunlight. Should you need to store the carpet, roll with the fibres on the inside and wrap it with a sheet to protect it.

100% wool and 100% hemp
